PERSONAL PROJECTS

Tenzies Game
- Tenzies Game is a thrilling web-based dice-rolling game built using HTML, CSS, JavaScript, and ReactJS. Its interactive user interface, dice rolling,animation and sound on winning.

Personal Portfolio
- My personal portfolio, created using HTML, CSS, JavaScript, and ReactJS, is a powerful tool for showcasing my skills, achievements, and projects. Its responsive design ensures a seamless user experience across devices, while the project showcase and skills section provide detailed insights into my capabilities.

CERTIFICATES

SQL specialization program (06/2023 - 06/2023)
The SQL Certificate showcases my proficiency in Structured Query Language (SQL), a fundamental language for managing and manipulating relational databases.
